# OUR SCOPE OF SERVICES

Cabram Logistics Limited currently provides various logistics services for numerous customers across different industries. We believe in providing customized solutions to our customers so our clients can focus on their core competencies.

Our service offerings include the following:

## **International Freight Forwarding-**

With the current pandemic causing serious delays and cancellations on so many air and sea shipments around the world, we work seamlessly with all our partners in different networks where we are members to give best market rates on different destinations to/from Africa.

**Customs Clearance Services**

**Warehousing/Storage**

**Import and Export**

**Project Cargo and other logistics services**

**Sea, Road, Air Transport**

**Dangerous Goods Logistics**

## OUR MISSION

Our mission is to provide superior, quality, efficient and reliable services that surpass customers' expectation. We strive to ensure this happens by building on good client relationship and fulfilling individual needs.

## OUR VISION

In order to achieve our vision, we must create value for all our stakeholders, which include our customers, our shareholders and our employees. Cabram Logistics creates value by executing a comprehensive business strategy guided by these core beliefs:

[www.cabramlogistics.com](http://www.cabramlogistics.com)

### **For our customers:**

To understand our customers' businesses and needs and to deliver on our promises, creating a win-win situation.

### **For our shareholders:**

To maximise value for our shareholders by delivering superior value to our customers and consequently achieving healthy profit performance and long-term sustainable growth.

To increase sales volume through innovative solutions and continuous improvement of our work processes.

### **For our employees:**

To motivate and train employees for self-development. To recognize outstanding performance with incentives and career advancement opportunities.

# OUR CAPABILITIES AND PROJECT

Anywhere. Anytime. A team you can rely on. Project Logistics account for a large percentage of our daily work, which is why our team members are used to dealing with complexity, large scale and often tight timeframes. We can help you with any stage of your project logistics, or manage the whole process as we offer both, end-to-end Supply Chain Solutions, as well as stand-alone project logistics services. Our Project Logistics Services

**Our Project Logistics services include the following:**

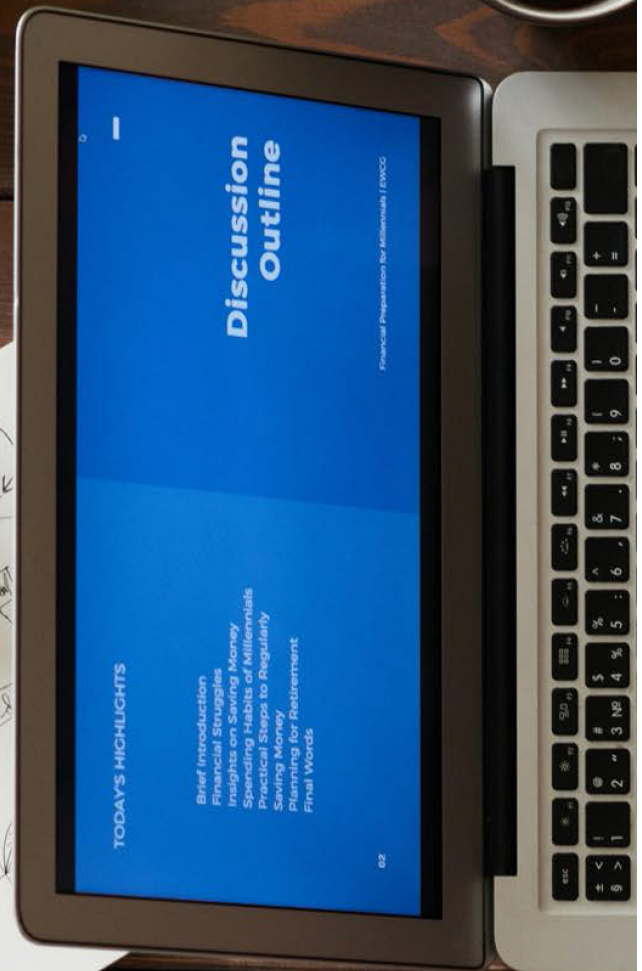

- Movement of over-dimensional (oversized, overweight, over-length and/or over-height) cargo and equipment
- A broad variety of types of other freight
- Off-wharf freight handling
- Project-specific storage and warehousing, available in remote areas (hard stand or covered, racking options, safe and secure)
- Supply Chain Solutions
- Live tracking of vehicles and equipment
- Site survey & feasibility studies (routes, weather, existing infrastructure etc)
- Route planning
- Cost modelling
